

## DFID MSP PROJECTS: BUILDING M&E CAPACITY IN THE EASTERN CAPE

**Project title: Training for strengthening the Eastern Cape AIDS Council Programme for Monitoring and Evaluation of Multi-sectoral HIV and AIDS Responses**

**Service Provider: Kelvin Sikwibele**

**Partner: Eastern Cape AIDS Council (ECAC)**

### **Aims**

The aim of this project was to develop and implement a capacity-building programme for improving the monitoring and evaluation of the multi-sectoral AIDS response in the province.

### **Project Description**

A framework and training plan for capacity-building in monitoring and evaluation of multi-sectoral HIV and AIDS responses was developed.

Five-day training programmes were held for:

- representatives from government departments and district managers;
- district and local AIDS councils;
- key NGO managers and civil society interest groups

After the training was completed a need was identified for follow-up training on the 'how to' aspects of implementing M&E processes.

The project also worked on building an M&E system for the ECAC that responds to the need for strategic information.

### **Results**

A responsive M&E system was delivered and over 100 government and civil society partners were trained to use it.
